Wilson's Auctions Ltd - Carbon Reduction Plan

Supplier name: Wilson's Auctions Ltd
Publication date: 1 December 2021

Commitment to achieving Net Zero

Wilson's Auctions Ltd is committed to achieving Net Zero emissions by 2050 at the latest.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: April 20 – March 21	
Our baseline emissions inventory includes all our measurable scope 1 and 2 emissions.	
Baseline year emissions: April 2020 – March 2021	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	264
Scope 2	346
Scope 3	Currently extrapolating data
Total Emissions	610

Emissions Reduction Targets

In order to progress to achieving Net Zero, we have adopted the following carbon reduction targets:

- Smart lighting in each owned site
- Smart meters for recording data for utility services
- Video conferencing utilised to reduce business travel
- Company fleet replaced with full electric vehicles
- HGV's to be replaced with ULEV's

Carbon Reduction Projects

- Our environmental management system across the UK and Ireland is UKAS certified to 14001 and is audited annually. It focuses on objectives and actions on areas that will have the most significant environmental impact both in the short and long term.
- We will work towards achieving 100% renewable electricity contracts for all owned supplies

We plan to implement further measures which will continue to drive down emissions. We are considering several initiatives and those listed below are some examples of areas we are discussing.

- Build awareness amongst our workforce of the impact of their decisions on our journey to net zero
- Reduce gas / oil consumption by replacing heater systems with panel heaters, air source heat pumps or solar thermal
- Procure 100% renewable electricity for owned sites
- Reduce business travel by air, rail and road through effective measurement and developing a sustainable travel policy
- Support employees to switch to electric vehicles
- Actively quantify carbon emissions from commuting and working from home via a rolling employee survey and use this as an opportunity to decrease scope 3 emissions via employee engagement
- Work with suppliers to encourage them to set their own carbon reductions targets

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Protocol corporate account and reporting standard and uses the most relevant emissions factors sourced from Government and official environmental bodies and suppliers.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions will be reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the Group Operations Director.

Signed on behalf of Wilsons Auctions Ltd:
